

Cancun Energy Drink Use Do-It Flag To Get Noticed In Busy Energy Drink Category

Cancun Energy Drinks wanted to draw attention to their Original Flavor energy drink in the highly competitive energy drink market. An excellent solution: Do-It Corporation's 2-PFR Flag.

The digitally printed 2-PFR Flag is designed to snap into a standard size price channel or attach to any surface with the adhesive included on the flag.

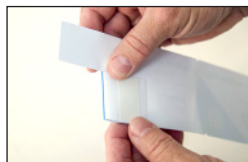

Each flag has a location for store personnel to mark current or special pricing for the energy drink.

For Cancun Energy Drinks, it's an attractive and flexible way to draw customer interest to their products anywhere in the store.

Easy to Assemble!

1) Fold lower tab with adhesive liner facing out. Fold flag in half at the score.

2) Remove adhesive liner from lower tab and press flag halves together.

3) Fold upper tab and snap into price channel or remove adhesive liner to attach.

The digitally printed wobbler can be seen from both directions as it intrudes into the aisle.
